

Reepay Payment Extension

For Magento 1

Created by Radarsofthouse on January 4, 2023.

Introduction

Reepay Payment Extension is a Magento 1 payment extension for the Reepay Payment gateway, which can be found here <https://reepay.com/>. Reepay Payment Extension will allow your Magento site to receive online payments using the most popular payment methods such as Mastercard, Visa, Visa Electron, Maestro, Dankort, Visa Dankort, MobilePay, ViaBill, Forbrugsforeningen and more.

DISCLAIMER: By downloading and installing the extension you accept that any use is on your own responsibility.

Installation

Method 1: Install via Magento connect

1. Download the installation file from:

<https://www.radarsofthouse.dk/download-reepay-betalingsmodul-til-magento/>

Note: Please make sure the file extension you downloaded is .tgz after saving it to your drive.

2. Backup your website directory and database
3. Log in to Magento backend
4. Disable Compilation
 - Go to 'System -> Tools -> Compilation' in the top menu.
 - Make sure the 'Compiler Status' is 'Disabled'
5. Disable and flush Magento cache
 - Go to 'System -> Cache Management' in the top menu
 - Click 'Select All'

Cache Storage Management

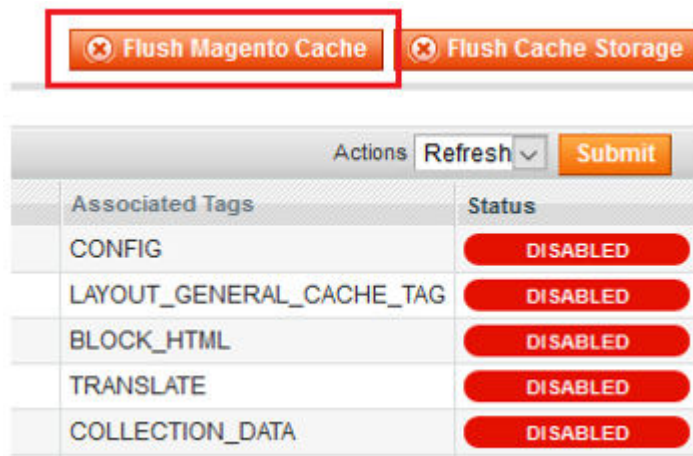

Select All | Unselect All | Select Visible | Unselect Visible | 8 items selected

	Cache Type	Description
<input checked="" type="checkbox"/>	Configuration	System(config.xml, local.xml) and modules co
<input checked="" type="checkbox"/>	Layouts	Layout building instructions.
