

Billwerk+ Payment Extension

For Magento 1

Created by Radarsofthouse, Updated November 17, 2023.

Introduction

Billwerk+ Payment Extension is a Magento 1 payment extension for the Billwerk+ Payment gateway, which can be found here <https://www.billwerk.plus/payments/>. Billwerk+ Payment Extension will allow your Magento site to receive online payments using the most popular payment methods such as Mastercard, Visa, Visa Electron, Maestro, Dankort, Visa Dankort, MobilePay, ViaBill, Forbrugsforeningen and more.

DISCLAIMER: By downloading and installing the extension you accept that any use is on your own responsibility.

Installation

Method 1: Install via Magento connect

1. Download the installation file from:

<https://github.com/RadarsofthouseDev/billwerk-plus-payment-for-magento1/releases>

or

<https://www.radarsofthouse.dk/billwerk-betalingsloesninger/>

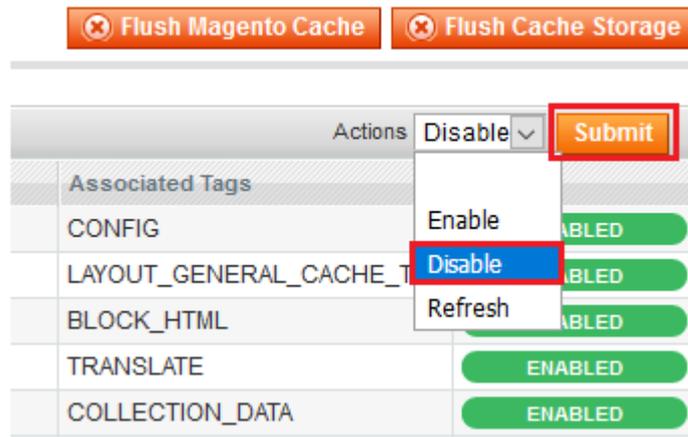

Note: Please make sure the file extension you downloaded is .tgz after saving it to your drive.

2. Backup your website directory and database
3. Log in to Magento backend
4. Disable Compilation
 - Go to 'System -> Tools -> Compilation' in the top menu.
 - Make sure the 'Compiler Status' is 'Disabled'
5. Disable and flush Magento cache
 - Go to 'System -> Cache Management' in the top menu
 - Click 'Select All'

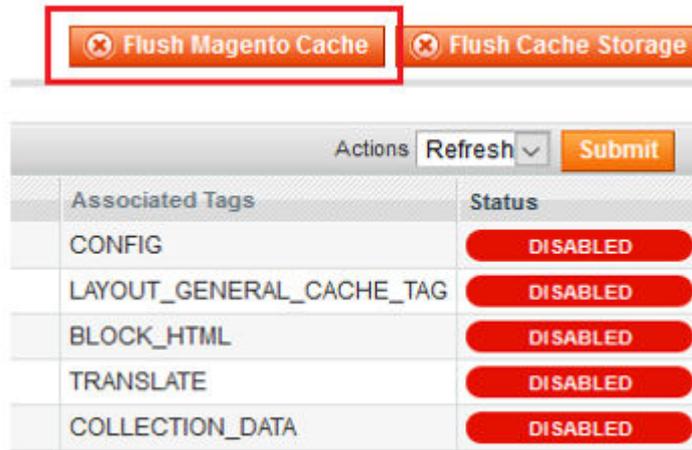

Cache Storage Management

Cache Storage Management	
Cache Type	Description
<input checked="" type="checkbox"/> Configuration	System(config.xml, local.xml) and modules co
<input checked="" type="checkbox"/> Layouts	Layout building instructions.
<input checked="" type="checkbox"/> Blocks HTML output	Page blocks HTML.
<input checked="" type="checkbox"/> Translations	Translation files.
<input checked="" type="checkbox"/> Collections Data	Collection data files.
<input checked="" type="checkbox"/> EAV types and attributes	Entity types declaration cache.
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api.xml).
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api2.xml).

- Select the 'Disable' action and click the 'Submit' button to disable all Magento cache

- Click 'Flush Magento Cache' button

6. Install the extension via Magento Connect Management

- Go to 'System -> Magento Connect -> Magento Connect Management' in the top menu
- Log in using admin username and password
- In the 'Direct package file upload' section, browse the installation file then click the 'Upload' button

Direct package file upload

1 Download or build package file.

2 Upload package file: reepay_payment-1.0.2.tgz

- Wait until installation is successful

Auto-scroll console contents

```
Package installed:  
community reepay_payment 1.0.2  
  
Cleaning cache  
**  
Cache cleaned successfully
```

- Click 'Return to Admin' in the top section

7. Flush all Magento cache again (see step 5)
8. Log out from the backend and log in again

Method 2: Install by uploading files via FTP.

1. Download the installation file from:

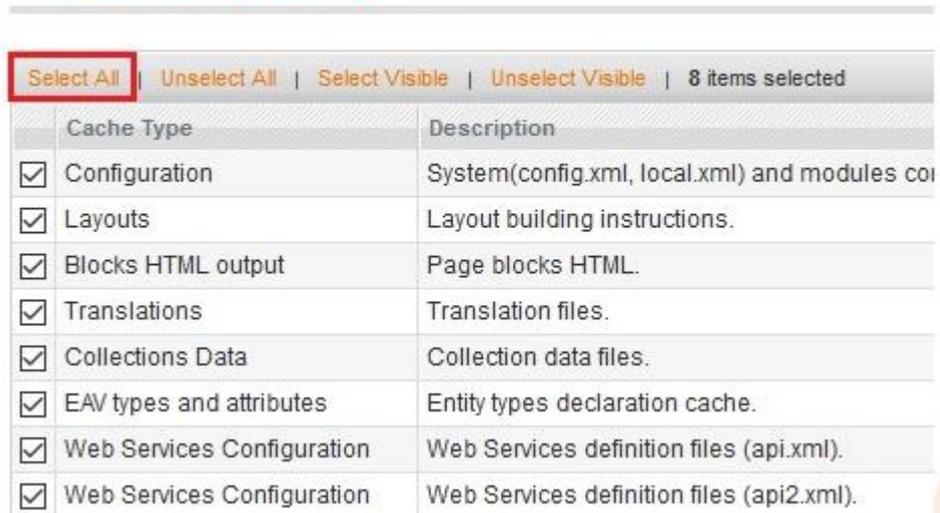

<https://github.com/RadarsofthouseDev/billwerk-plus-payment-for-magento1/releases>

or

<https://www.radarsofthouse.dk/billwerk-betalingsloesninger/>

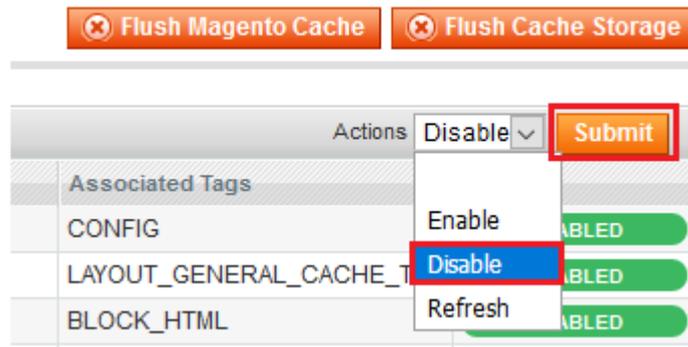

2. Extract files to your computer
3. Backup your website directory and database
4. Log in to Magento backend
5. Disable Compilation
 - Go to 'System -> Tools -> Compilation' in the top menu.
 - Make sure the 'Compiler Status' is 'Disabled'
6. Disable and flush Magento cache
 - Go to 'System -> Cache Management' in the top menu
 - Click 'Select All'

Webhooks Setting in Billwerk+.

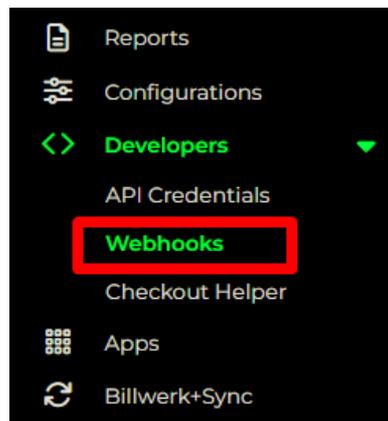

Method 1: Set from Magento

1. Go to Billwerk+ payment configuration
2. Enter the Private API Key, save the configuration then click the 'Update' button.

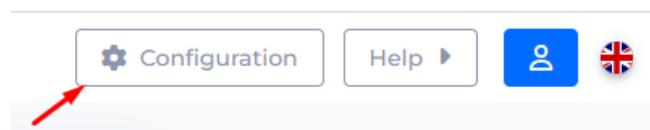

Private API Key For Test	<input type="text" value="REDACTED"/>	[STORE VIEW]
	<small>▲ you can find at https://admin.billwerk.plus under "Developers" >> "API Credentials".</small>	
Private API Key	<input type="text" value="REDACTED"/>	[STORE VIEW]
	<small>▲ you can find at https://admin.billwerk.plus under "Developers" >> "API Credentials".</small>	
API Key Type	Test <input type="button" value="v"/>	[STORE VIEW]
	<small>▲ To switch account between test account and live account.</small>	
Update webhook URL in Billwerk+	<input type="button" value="Update"/> 	[WEBSITE]
	<small>▲ Note: Save config before updating the webhook URL.</small>	
Display type	Window <input type="button" value="v"/>	[STORE VIEW]
	<small>▲ Note: ViaBill, Vipps, Resurs Bank and Apple Pay will be opened in "Window" display type.</small>	

Method 2: Manually set in Billwerk+

1. Log in to Billwerk+ <https://admin.billwerk.plus/#/login>
2. Go to 'Developers -> Webhooks' in the left menu

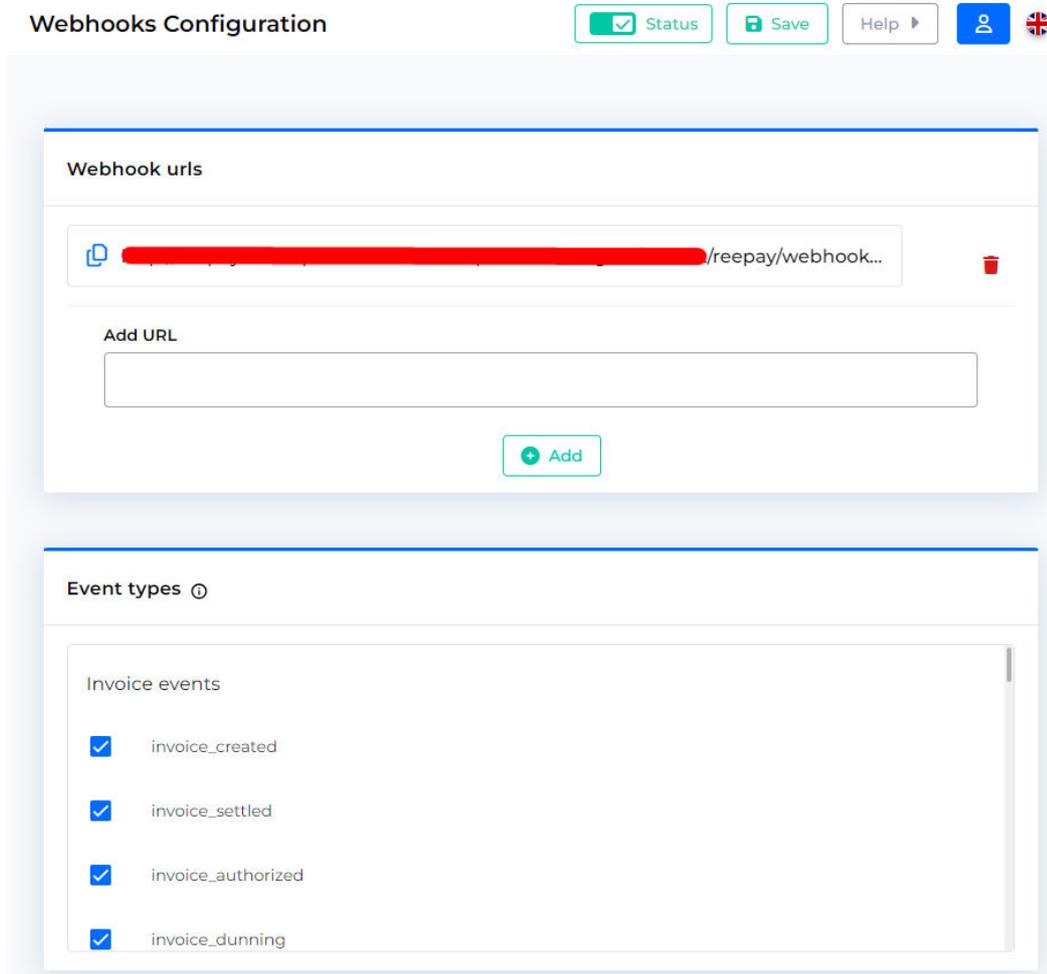

3. Click "Configuration" button in the top section

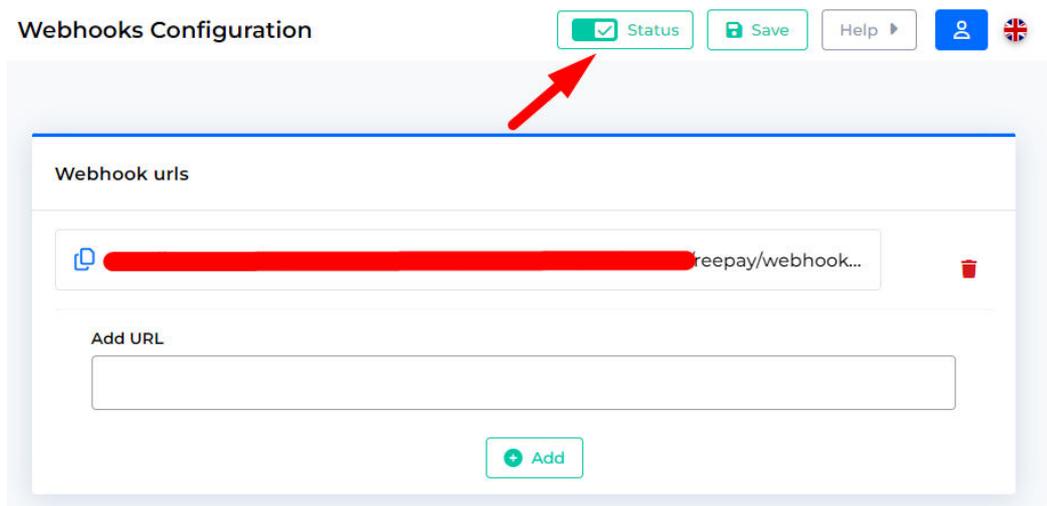

4. Add a webhook URL, then click "Save" button.

URL format: [Your shop URL]/reepay/webhooks/index

Example: <http://reepay-magento.com/reepay/webhooks/index>

Ensure that the status is set to active and click "save" button.

Cache settings

If you use advanced cache, such as Vanish Cache, Full Page Cache, etc. you must disallow cache for this URL

Disallow URL: reepay/*

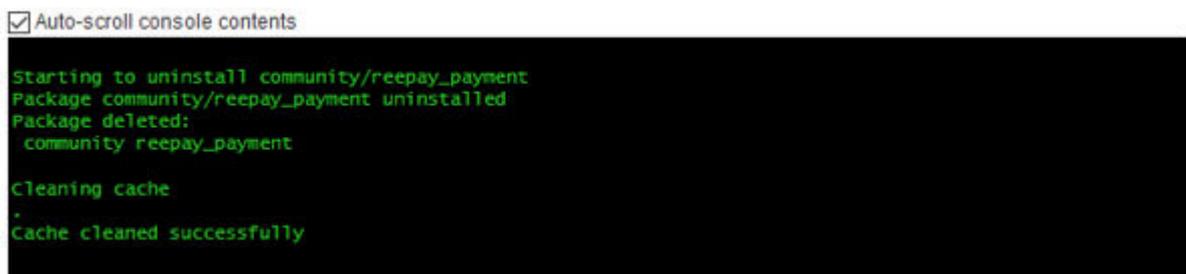

Uninstall

1. Log in to Magento backend
2. Disable Compilation and all Magento cache
3. Go to 'System -> Magento Connect -> Magento Connect Management' in the top menu
4. Log in using admin username and password
5. In the "Manage Existing Extensions" section, find 'reepay_payment'
6. Select "Uninstall" then click "Commit changes" button

7. Wait until uninstall is successful.

8. Click 'Return to Admin' in the top section
